

Living with God is education. In order to be happy, let us learn to love and live like Sathya Sai Baba, and live in the present and commune with God.

There was a short break at this point and whilst devotees had some refreshments, they were entertained with a live instrumental performance.

The second half of the programme started, with two melodious songs, by the youth choir of Region 4.

Sri Anil Kumar commenced the second half of his talk with the bhajan 'Hari Hari Om'. He said that if it were not for Swami's Grace, it would not have been possible for us to be here. Sai's hand is forever present.

He said as he arrived at Heathrow airport, he was recognised and passed through the airport without having to go through immigration.

He said that on his return from Japan, his Indian Airline flight was delayed by one and a half hours. He reached Bombay with the thought that he had missed his connecting flight, but, was pleased to learn that the Air India flight had also been delayed by one and a half hours. Therefore he did not miss his flight home. Swami, at the very same time spoke of this incident to His students and told them that He had delayed the flight for Sri Anil Kumar.

Whilst in Japan, Anil Kumar was offering Aarti at a conference. At this time, his hand began to shake as honey poured from Swami's picture. Swami recited this incident to those at Prasanthi and said that Sri Anil Kumar's hand is now shaking because honey is pouring from my photograph in Japan.

Swami says, "If you do My work, I'll do your work". There is no such thing as Swami's work and our work. All work is Swami's work. Swami cares for everyone in this world.

At the All India Conference, everyone was being fed. There were a thousand people in the kitchen and they were feeling sad because they could not hear Swami's discourse. Swami appeared to them in the kitchen and enquired about them all. But at the same time He was still giving His discourse. The simple job is ample to Swami.

One time Swami visited the college campus and stopped His car where a gentleman named Rajendra was painting. He said to the man "look here, why do you work late at night? You have work at the office also. If Sai devotees neglect their work at the office, it is not good". Swami said that He knows who is working and He knows who is pretending. No one can deceive Him and none can escape His notice. He once called Sri Anil Kumar a stunt master for pretending to work. Sri Anil Kumar replied, "All this show is only to see You Swami".

Living with Swami is not easy; you have to walk across the fire without being burnt. When Swami asked Sri Anil Kumar to be Principal of the Brindavan Campus, he did not jump at the opportunity. He could not sleep and wondered why Swami had insisted on Him being there.
